NEWS FROM ROHDE & SCHWARZ

INDEX VOLUME 10 · NUMBERS 41 to 46

Test hints are marked (t), refresher topics (r), news in brief (b) and humorous (h); main articles have no designation

Subject Index

	Number	Page
Absorbing Clamp MDS-20 for Interference Measurements in VHF Range H. Goldmann	46	18
Accents of the year (h) Stw	46	42
Aircraft-noise Monitoring at Frankfurt and Düsseldorf (b) P/mac	44	34
Amplifier Circuits, Basic (r) Part I R. Mäusl Part II	45 46	28 30
Analyskop de Luxe (b) MD/RS	46	36
Analyskop EZF, a Versatile Frequency and Time-domain Analyzer for 6 kHz to 170 MHz P. Birgels, K. Zirwick	42	18
Analyzer FAT 3 for Tape Test (b) P/mac	44	33
Antenna-tuning Unit and its Use with Shortwave Transmitter SK 1/39.., Programmable S. H. Neumann, W. Port	46	21
Application Digital Multimeter UGWD: Speedy and Accurate V and Ω Measurements	41	39
Application IC Tester Semitest III ISP: Rapid Checks on Logic IC's	44	37
Application Sweep Diagraph ZWA 10 to 480 MHz: Impedances Swept Automatically	43	31
Atomic Frequency Standards in Navigation Equipment F. Sender	44	5
Blocking Measurements on Radiotelephony Equipment (b) H.-E. Ramundt	46	34
British Forces Network, Broadcasting Anniversary of P/mac	45	31
Calibrating Frequency Scales, Time-saving, Numerical Method of (t) H. Bretschneider	44	30
Computer, Working with the (b) BM	41	35
Count-down System D. Groening	43	13
Counter, Value-for-money 800-MHz (b) P/mac	42	40
Crystal Components – Measured with Sweep Diagraph ZWA J. Richter	44	25
Crystal Oscillators XSE and XSF, Plug-in H. Pichl	41	18
Data Transmission with DT System NT 100, Dependable H. Roth, H. Vierbacher	42	27
Demonstrare necesse est (h) RUS	43	42
Demonstration Bus, Green Light for (b) BM	46	35
DF Transmitter for Diamant-B Rocket (b) H. Pichl	43	26
Digital Multimeter UGWD, Practical Accessories for (b) P/mac	45	32
Digital Q Meter QDM B. Dürbeck	45	20
European Radio Paging Service – A New Communication System H. Frölich, R. Tauber, F. Scheuerecker	46	5
Frequency and Time-domain Analysis (t) P. Birgels, K. Zirwick	42	34
Frequency and Time-domain Analyzer for 6 kHz to 170 MHz, Analyskop EZF, a Versatile P. Pirgels, K. Zirwick	42	18
Frequency Counter FEG 3, Universal Counter FEG 2 and M. Klose	43	15
Frequency Differences of Low Order, Phase Recorder XKP for Measuring E. Jechart	41	14
Frequency Differences, Ready Measurement of Low-order (b) Stw	46	38

	Number	Page
Frequency Standards More than Fulfil their Promise (b) RSH/LF/Wgr	45	30
Globetrotting R&S (h) H. Lutz	42	42
Horn Antennas, Standard-gain H. Hager	42	32
IC's, Practical Automatic Test Systems for Semiconductors and (b) M. Priebsch	41	34
IC Tester ICM for Linear and Logic Circuits H. J. Stöhr	41	11
IC's with IC Tester Semitest III, Rapid Checks on Logic (Application Note ISP)	44	37
Impulse Sound-level Meter EZGA Passes Type-approval Test (b) P/mac	43	25
Impedances Swept Automatically (Application Note ZWA)	43	31
Input and Offset Currents, The Correct Definition and Measurement of (t) G. Dabrowski	45	25
Level Meters, USU 1 and USU 2 – Two New Selective K.-O. Müller	45	5
Mexico Builds Radio-monitoring Network (b) P/mac	46	33
Microvoltmeter with Rms Rectification, The New UVM – Wideband K. H. Blankenburg, J. Schermer	45	11
Mitteilungen, Rohde & Schwarz (Abstracts from published articles)	46	
Monitoring Receiver ESU up to 1300 MHz (b) P/mac	44	32
Multimeter Voltan UVV W. Frieß	45	15
Noise Figure, Measurement of (II) (t) P. Birgels	41	30
Out-of-Band Emission of Noise-modulated Transmitters, Determining the (t) P. Birgels, K. Zirwick	43	22
Polyskop III SWOB, New Fields of Application for F. Ebert	42	24
Power Supplies with Special Surge-current Characteristics J. Hellmis, E. Holle	45	23
Premiere at 1970 Radio Show (b) P/mac	45	31
Q Factor of Coils, Measuring the (I) (t) B. Dürbeck	46	28
Quality from Memmingen (b) Stw	43	30
Rack-mounting Units, Rational Concept for 19-in./DIN E. Wagner, H. Wegener	41	27
Radio Paging Service – A new Communication System, European H. Frölich, R. Tauber, F. Scheuerecker	46	5
Radiotelephony Equipment, Blocking Measurements on (b) H.-E. Ramundt	46	34
Recording and Monitoring System for Checking Temperature Profiles in a Reactor, UC S. Lietz	43	5
Renting sounds right (h) WB/RUS	44	46
Semiconductors and IC's, Practical Automatic Test Systems for (b) M. Priebsch	41	34
Semiconductor Testers for the European Space-travel Research Centre, Automatic (b) P/mac	42	39
Semitest III, a Test Instrument for Logic IC's L. Wagner	41	9
Semitest III, Rapid Checks on Logic IC's with IC Tester (Application Note ISP)	44	37
Semitest IV – Tester for Linear IC's G. Dabrowski, D. Kolbe	45	17
Shortwave Antennas for Riyadh (b) BM	44	35
Spirit of Progress (h) RUS	45	38
Standard Time for Satellite Photography (b) O. Hirsch	42	37
Standby Unit for Outside Broadcasts, VHF-FM Transmitters with F. Schliffenbacher, D. Liß	44	16
Stratosphere Balloons, VHF Receiving-antenna System for Locating (b) H. Röhrs	42	38
Sweep Diagraph ZWA, Crystal Components – Measured with J. Richter	44	25
Telegraphy Demodulator for Communications Receiver EK 47 E. Burger, M. Hiergeist	41	22
Tester for Linear IC's, Semitest IV – G. Dabrowski, D. Kolbe	45	17
Test Instrument for Logic IC's, Semitest III, a L. Wagner	41	9

	Number	Page
Test Systems for Semiconductors and IC's, Practical, Automatic (b) M. Priebsch	41	34
Trade College with Exemplary Laboratory Facilities for Telecommunications, RF Engineering, Radio and Television W. Weber, E. Geister	43	8
Transmitting Station Cloppenburg with Standby Facility (b) P/mac	41	33
TV Demodulator AMF, New Transistorized O. Hermsdörfer	44	18
TV Transmitters for Czechoslovakia (b) P/mac	44	36
TV Transmitters on the Pfaffenberg near Würzburg (b) P/mac	41	33
TV Transposers, High Demands Made of (b) B. Machule	41	32
UHF Antenna Systems in Sweden (b) P/mac	43	27
UHF Directional Array with Variable Polarization M. Schiller	46	25
Universal Counter FEG 2 and Frequency Counter FEG 3 M. Klose	43	15
USU 1 and USU 2 – Two New Selective Level Meters K.-O. Müller	45	5
VHF-FM Broadcasting Transmitters, New Generation of H. Frölich	44	12
VHF-FM Transmitter with Standby Unit for Outside Broadcasts F. Schliffenbacher, D. Liß	44	16
VHF Radiator as Antenna Module, Novel Directional F. Scheuerecker, B. Kistner	43	17
VHF Receiving-antenna System for Locating Stratosphere Balloons (b) H. Röhrs	42	38
VHF Relay Receivers for South Africa (b) P/mac	45	32
VHF Transmitter Network in Greece (b) P/mac	42	40
VHF Transmitting System for Belgium (b) P/mac	41	33
Wave Analyzers for 5 Hz to 60 kHz with Wide Dynamic Range, FAT-series of W. Martin, R. Birner	42	9
Weather Pictures, Trouble-free (b) B. Machule	43	27
XY Recorder ZSK and YT Recorder ZSG 1, Two New Plug-ins for I. Jambor	46	15
YT Recorders with Quotient-recording Facility, Two Fast W. Attenberger, K. Hutzl	46	12
YT Recorder ZSG 1, Two New Plug-ins for XY Recorder ZSK and I. Jambor	46	15

Author Index

Attenberger, W.; Hutzl, K. Two Fast YT Recorders with Quotient-recording Facility	46	12
Birgels, P. Measurement of Noise Figure (II) (t)	41	30
Birgels, P.; Zirwick, K. Analyskop EZF, a Versatile Frequency and Time-domain Analyzer for 6 kHz to 170 MHz Frequency and Time-domain Analysis (t) Determining the Out-of-band Emission of Noise-modulated Transmitters (t)	42 42 43	18 34 22
Birner, R.; Martin, W. FAT-series of Wave Analyzers for 5 Hz to 60 kHz with Wide Dynamic Range	42	9
Blankenburg, K. H.; Schermer, J. The New UVM – Wideband Microvoltmeter with Rms Rectification	45	11
Bretschneider, H. Time-saving, Numerical Method of Calibrating Frequency Scales (t)	44	30
Burger, E.; Hiergeist, M. Telegraphy Demodulator for Communications Receiver EK 47	41	22
Dabrowski, G. The Correct Definition and Measurement of Input and Offset Currents (t)	45	25
Dabrowski, G.; Kolbe, D. Semitest IV – Tester for Linear IC's	45	17
Dürbeck, B. Digital Q Meter QDM Measuring the Q Factor of Coils (I) (t)	45 46	20 28
Ebert, F. New Fields of Application for Polyskop III SWOB	42	24
Frieß, W. Multimeter Voltan UVV	45	15
Frölich, H. New Generation of VHF-FM Broadcasting Transmitters	44	12
